

## COMPOSTING KERRY PARK LOTS

### \*\*\*\*EFFECTIVE IMMEDIATELY\*\*\*\*

1. For those campers who chose to bag their grass clippings/pine needles and pine cones please be advised that these bags will now be placed in your driveways for pickup. Pickup of bags will be Mondays and Fridays.
2. All branches must be placed on the trailer by garbage dumpsters.

### \*\*\*\*ABSOLUTELY NO GARBAGE IN THE COMPOSTE BAG OF YOUR GRASS/CONES.NEEDLES\*\*\*\*

### \*\*\*\*\*ABSOLUTELY NO COMPOSTE FROM LOTS TO BE DUMPED INTO THE REGULAR GARBAGE BINS.\*\*\*\*\*

Unfortunately there have been campers who continue to place grass/needles and cones into the regular household garbage bins. This must stop immediately. There are two reasons why this must stop:

1. Our town garbage man will not remove the waste from the bins. And if this continues we could lose our garbage service.
2. People who put this waste into the garbage bins may be creating a fire! This is very serious.

We as management must try to ensure the safety of our campers and it is the camper's responsibility to do the same.

**We will be monitoring this situation and should the people continue to do this they will lose the right to their seasonal lot.**

**The residents of Killarney do not have this service provided to them and they are expected to dispose of their yard waste by themselves.**

**Please respect this service and adhere to it. Failure not to will cause elimination of this service and campers will be responsible to dispose of lot waste themselves.**

**Thank you.**
